Here's a structured summary of the provided text:

Sachin Patil: An Experienced Oracle Database Lead with Over a Decade of Expertise

1. Headline / Title
Sachin Patil: An Experienced Oracle Database Lead with Over a Decade of Expertise in Database Administration and Cloud Migration.

2. Key Events / News Highlights
*   **Extensive Experience:** Sachin Patil boasts over 10 years of experience as an Oracle Database Administrator (DBA) across telecom and leading financial industries.
*   **Core Competencies:** Demonstrates over 9 years of proficiency with Oracle RAC, standby databases, and Data Guard replication, alongside over 4 years with Oracle GoldenGate replication and 2+ years with PostgreSQL databases.
*   **Comprehensive Database Support:** Supports databases covering all aspects of business, including head office applications, service management, e-commerce, share dealing, and business intelligence.
*   **Technical Versatility:** Experienced in Oracle 10g, 11g, 12c, and 19c database administration, including installation, configuration, and patching on AIX and UNIX servers.
*   **Strategic Responsibilities:** Has been responsible for Disaster Recovery exercises, zero-downtime cutovers, and migration of databases to cloud environments (Infrastructure as a Service - IAAS).
*   **Current Role & Achievements (TSYS - A Global Payments Company, since Sept 2020):**
    *   Assisted in planning and implementing disaster recovery and High Availability strategies.
    *   Performed cross-platform migration from Oracle to Azure SQL using Oracle GoldenGate replication.
    *   Upgraded Oracle Enterprise Manager (OEM) from 13.4 to 13.5, including target database agents, and configured new OEM 13.5 for monitoring.
    *   Managed database performance issues through SQL tuning, creation of SQL profiles, missing indexes, and statistics gathering.
    *   Successfully recovered databases from corrupted/lost datafiles in real-time on production environments.

* Planned and implemented comprehensive backup and recovery strategies and performed capacity planning for efficient database growth.
* Handles daily Business As Usual (BAU) activities and resolves incidents.

3. Political Updates
No information provided.

4. Economic Updates
No information provided.

5. International Relations
No information provided.

6. Miscellaneous / Other Important Notes
* **Professional Title:** Associate Oracle Database Lead.
* **Key Skills:** Includes Oracle Enterprise Manager (OEM), Database Configuration Assistant (DBCA), Database Upgrade Assistant (DBUA) / MetaLink, UNIX/Linux Shell Scripting & SQL, SQL*Plus / SQL Developer / Goldengate, Data Pump / DGMGRL / Goldengate, AWR / ADDM Report Analysis, Ogghub, and Terraform.
